

## **(Reader: TIGER) A New Supreme Court of the US Republic**

Monday, 29 January 2024,

**Reader Post | By TIGER**

The events at Eagle Pass present the White Hats with a golden opportunity. The Supreme Court has violated their binding oath to the Constitution by ordering the removal of wire that represents, literally, the dissolution of the border, while America is being invaded. This invalidates not only the specific ruling of the Court, but further, it invalidates the Authority of the Court.

The Constitution, however, demands that there be a Supreme Court duly sworn to defend the Constitution against all enemies, foreign and domestic, and its members swore a BINDING oath to do so. This requirement for a valid Court supersedes the part of the Constitution that prevents States from entering into alliances with each other. There must be a properly functioning Supreme Court just like there must be a President and there must be a legislative process in order to fulfill the requirement intended by the Constitution, which is, a Republic.

By siding with the invading forces, the existing Supreme Court of the US (SCOTUS) has demonstrated that it is dysfunctional and corrupt. This dysfunction has already been demonstrated clearly by its failure to hear the Brunson case, which should have been the most important case ever heard by SCOTUS, and should have already removed 388 corrupt "leaders".

The remedy for this is obvious. The States must recognize the authority of an alternative Supreme Court, which could be designated, for clarity, as the Supreme Court Of The US Republic (SCOTUSR). This Court should be established IMMEDIATELY with the first case on its docket being the Brunson case. Further, that case should be heard IMMEDIATELY and the proceedings broadcast and streamed nationally.

This Remedy constitutes an effective means to avoid "Fort Sumtering" the US into a civil war by instead moving the conflict to where it should be, a discussion of the intent of the Constitution and the rightful and the peaceful resolution of the formerly irresolvable stances between the sides that want Government That Provides Wealth (via redistribution) instead of the Constitutionally-intended Government That

Protects Rights. An accurate and deserved ruling in the Brunson case will invalidate the membership of 388 corrupt "leaders" who turned against their Constitutional duty to review the election results of 2020, and thus this case will surface the true ideals and consequences of the one versus the other (GTPW versus GTPR), which, if allowed to remain, is "A House Divided Against Itself That Cannot Stand" and this division is clearly represented by the conflict existing regarding who is the rightful President.

The establishment and recognition of the Supreme Court Of The US Republic (SCOTUSR) is a vital stepping stone to the peaceful transfer of power from the corrupt, incorporated government (USA Inc.) to the rightful government intended by the Constitution.
